Profile

Informatics student at University West with experience in service and sales. Accustomed to working in fast-paced environments with clear demands for collaboration and responsibility. Seeking opportunities to continue professional development, either through a full-time position after graduation or alongside planned master's studies.

Experience

STORE ASSISTANT, WILLYS | 2025

Part-time role focusing on cashier duties, stock management, and customer service. Required responsibility, accuracy, and teamwork to ensure high-quality service.

STORE ASSISTANT, ICA MAXI STORMARKNAD | 2022-2023

Part-time role across multiple departments with focus on stock handling and customer service in a fast-paced environment. Required responsibility, structure, collaboration, and professional customer interaction.

ELDERLY CARE, BERGMANS GRUPPBOENDE | SOMMAR 2022

Summer position in a dementia unit providing care and support to residents. Required responsibility, empathy, and strong teamwork.

SALESPERSON, PERSONAL BEST | 2021-2022

Direct sales of electricity contracts to customers. Developed communication, negotiation, and professional interaction skills in challenging situations.

Education

University West, Trollhättan – Bachelors in Informatics | Expected Spring 2026

Sjölins Gymnasium, Gothenburg – Economics & Law | 2023

Projects

MEDIA TRACKER – MOBILE APP | 2025

React Native mobile app for searching, saving, and marking movies and TV shows as watched. Integrates external API data and local storage, providing a simple and responsive user experience.

TICKY – TASK MANAGER | 2025

Task manager built with React and Firebase for creating, organizing, and prioritizing tasks with deadlines and notes. Combines simple, responsive design with cloud-based Firestore storage.

DESIGNCASE – SELF-SERVICE CHECKOUTS | 2022

On my own initiative, I designed an improved interface for self-service checkouts at Willys, based on recurring user problems I observed as an employee.

Other Skills

- **Programming**: C#, Java, JavaScript, SQL, PHP, React, React Native och Swift

- **Skills**: Problem-solving, collaboration, customer service, negotiation
